

ENTERPHONE[®] X (EPX)

EPX is a No Phone Line (NPL) telephone entry intercom system. EPX can be used as a basic NPL system when combined with any Viscount telephone entry panel (MESH, Elektra, Axess, Classic, Slimline, Centurion). EPX can also be used with MESH as a complete building security system including intercom, access control and video functions. EPX can dial as an NPL system or can make calls to regular telephones or cellular phones.

Functional and Technical Features:

- Built-in Call Waiting
- Distinctive ring for intercom calls
- Does not require users to have regular phone service. A telephone connected to any telephone jack with/without phone service can receive intercom calls.
- Does not require rental of a telephone line by management and there are no message unit charges
- Integrated DSL filter option
- Up to 240 suites per base unit, expandable to 1000
- Simple 2 wire data cable connection between any panel and EPX
- Accepts any DTMF telephone based input
- Backward compatibility with Enterphone 2000 relays
- Up to 16 telephone connections per system
