

# MESH™ 15" Stainless Steel Keypad - 50-21-08

MESH 15" Keypad Panels are intercom accessories for the Freedom control system. MESH panels can be surface or flush mounted. MESH allows building tenants to communicate with visitors and grant or deny entry. Units can display residential or commercial building directory listings with a building specific screen saver. Options include built-in cameras, card access, and elevator control. Optional touch screen versions have additional features including "hot buttons", multiple languages, enhanced search and PIN codes. Multiple panels can be connected on a shared database or to a Freedom Server for complete card access.

## Functional Specifications:
